Nadja R. Ging-Jehli, PhD

nadja@gingjehli.com | gingjehli.com | Google Scholar | GitHub | LinkedIn
Tucson, AZ | Permanent US Resident

I develop mechanistic computational frameworks for the science of agency – studying how adaptive intelligence and agency emerge, are sustained, and break down across neural, psychological, and social scales. My work traces the causal chain from meta-learning and meta-control mechanisms to enacted agency: systems that actively reshape the environments shaping them. Bridging model-based cognitive neuroscience, hierarchical reinforcement learning, and serious game platforms, I apply these frameworks to understanding how failures of adaptive control give rise to psychopathology and how the same principles can inform the design of adaptive AI systems.

ACADEMIC APPOINTMENTS

09/2026 – **Assistant Professor (Incoming)**
Cognition & Neural Systems, Department of Psychology, University of Arizona, Tucson, AZ
PI, NAIADEL Lab (Neurocomputation, Adaptive Intelligence, Agency Dynamics, Embodied Learning)

2025 – 08/2026 **Independent Investigator | Swiss National Science Foundation Fellow**
Center for Digital Health Interventions, University of St. Gallen / ETH Zurich, Switzerland
Visiting Scientist, Department of Cognitive & Psychological Sciences, Brown University, Providence, RI
Independent research program on computational frameworks linking neural, psychological, and algorithmic mechanisms of adaptability; applications in digital psychiatry and adaptive AI systems.

2023 – 2025 **Independent Project Leader | ARC Scholar**
Carney Institute for Brain Sciences, Brown University, Providence, RI
PI-equivalent independent project on a next-generation neurocomputational game platform for behavioral phenotyping and adaptive AI training. Hired and managed multidisciplinary team of 5; oversaw budget and scientific direction.

2022 – 2025 **Postdoctoral Research Associate**
Laboratory of Neural Computation and Cognition (PI: Michael J. Frank)
Department of Cognitive & Psychological Sciences, Brown University, Providence, RI

2013 – 2017 **Research Assistant**
Chair of Behavioral and Experimental Economics (PI: Roberto A. Weber), University of Zurich, Switzerland
Decision Science Laboratory (PI: Stefan Wehrli), ETH Zurich, Switzerland

EDUCATION

2019 – 2022 **PhD, Psychology and Neuroscience**
The Ohio State University, Columbus, OH
Specialization: Model-based Cognitive Neuroscience
Dissertation: Characterizing adult ADHD with a multidisciplinary computational approach
Advisors: Patricia Van Zandt, Brandon Turner, Jay Myung, L. Eugene Arnold, Mary Fristad

2018 – 2021 **Clinical Internship**
Nisonger Center, Department of Psychiatry and Behavioral Health, Wexner Medical Center, OSU
Clinical advisor: L. Eugene Arnold

2017 – 2019 **MA, Psychology | Specialization: Cognitive Psychology and Neuroscience**
The Ohio State University, Columbus, OH
Advisors: Roger Ratcliff, Patricia Van Zandt, L. Eugene Arnold

2015 – 2017 **MA, Economics | Minor: Behavioral and Experimental Economics**
University of Zurich, Switzerland — Graduated Magna Cum Laude
Advisor: Ernst Fehr

2012 – 2014 **BA, Economics**
University of Zurich, Switzerland — Graduated Magna Cum Laude | Dean's List | Rieter Prize (Best BA Thesis, 2012), Thesis: Generosity across economic contexts. Advisor: Roberto R. Weber

2008 – 2012 **BS, Business Administration**
Zurich University of Applied Sciences (ZHAW), Winterthur, Switzerland
Thesis: Corporate governance in consultancy settings and behavioral economic insights on intrinsic motivation, Advisor: Stefan Schuppisser

GRANTS & FUNDING

Awarded

2026 – 2029 **Coalition for Aligning Science (CFF)**
Toward Robust, Dynamic, and Naturalistic Measurement of Creativity and Cognitive Flexibility
Role: Co-Investigator (PI: Jessica Andrews-Hanna) | $953,000 USD (directs)

2025 – 2026 **Swiss National Science Foundation (SNSF)**
Validity and reliability of a neurocognitive supertask platform for predicting real-world transdiagnostic rigidity
Role: Principal Investigator | 140,000 CHF (directs)

2023 – 2025 **NIH / Carney Institute ARC Program (NINDS)**
Developing a computationally engineered game environment for wholistic neurocognitive and social assessments
Role: Principal Investigator | $25,000 USD (directs)

2023 – 2025 **Swiss National Science Foundation (SNSF)**
Using Computational Psychiatry to explore transdiagnostic features of neurodevelopmental- and mood-related disorders
Role: Principal Investigator | 10,000 CHF (directs)

2019 – 2020 **Swiss National Science Foundation (SNSF)**
Using Computational Psychiatry for Phenotyping ADHD
Role: Principal Investigator | 3,000 CHF (directs)

Under Review / In Preparation

2027 – 2030 **CIFAR-Jacobs Foundation —** Finalist (2025 cycle); invited to resubmit
Neurocomputational Mechanisms of Adaptability and Meta-Learning in Youths
Role: Principal Investigator | 150,000 CHF (directs)

FELLOWSHIPS & AWARDS

2026 Competitive Follow-on Travel Award for Outstanding Research Progress, American College of Neuropsychopharmacology (ACNP) | $2,000

2026 Symposium Award, Schizophrenia International Research Society (SIRS) | $1,000

2025 Travel-Fellowship Award, American College of Neuropsychopharmacology (ACNP) | $2,000

2025 Travel Award, Computational Psychiatry Conference | €1,000

2025 Travel-Fellowship Award, Society of Biological Psychiatry (SOBP) | $2,000

2024 Swiss National Science Foundation Postdoc Award | 5,300 CHF

2023 Symposium Award, American College of Neuropsychopharmacology (ACNP) | $1,000

2023 ThinkSwiss & Fulbright Alumni Travel Award, Embassy of Switzerland | $500

2023 Swiss National Science Foundation Postdoc Award | 5,300 CHF

2023 Travel & Networking Award, Women of Mathematical Psychology | €500

2022 – 2023 NIH Computational Psychiatry Postdoctoral Training Fellowship (T32), Brown University | $113,680

2021 – 2022 Presidential Fellowship, The Ohio State University | $40,000

2019 – 2020 Graduate Fellowship, Swiss National Science Foundation | 93,725 CHF

2017 – 2018 University Fellowship, The Ohio State University | $20,000

2017 Magna Cum Laude, University of Zurich (MA Economics)

2012 Magna Cum Laude & Dean's List, University of Zurich (BA Economics)

2012 Rieter Prize — Best Bachelor Thesis, University of Zurich

INVITED TALKS

2026

2026 — Inferring when actions matter: A computational account of persistence-escape arbitration and its breakdown. RLDM Seminar, hosted by Peter Dayan, Max Planck Institute for Biological Cybernetics, Tübingen, Germany

2026 — Agency, Avoidance, and Meta-Control: A Computational Account of Persistence-Escape Decisions. Department of Child & Adolescent Psychiatry, Technische Universität Dresden, Germany

2026 — Agency, Avoidance, and Meta-Control: A Computational Account of Persistence-Escape Decisions, Department of Psychology, Emory University, Atlanta, GA

2026 — Adaptive Cognition Across Timescales: Neurocomputational Mechanisms of Learning, Control, and Flexibility, Department of Psychology, University of Arizona, Tucson, AZ

2026 — Adaptive Minds: From Mechanism to Intervention in Personalized Mental Health, Center for Technology and Behavioral Health, Dartmouth College / Geisel School of Medicine, Lebanon, NH

2025 – 2024

2025 — Neurocomputational Mechanisms of Adaptive Decision-Making: From Basal Ganglia Dynamics to Hierarchical Reinforcement Learning and Contextual Meta-Learning, Princeton Neuroscience Institute (Hosts: N. Daw & T. Griffiths), Princeton University, NJ

2025 — Adaptive Intelligence Under Uncertainty and Control Loss, Department of Psychiatry, University of Michigan, Ann Arbor, MI

2025 — **Keynote:** Adaptability in the Digital Age: From Neuroscience to Next-Generation Agentic AI and Health Ecosystems, Digital Health Forum, University of St. Gallen, Switzerland

2025 — Gearshift Fellowship: From Neurocomputational Mechanisms of Adaptability to an Ecosystem for Translational Modeling, University of Toronto (Host: A. Diaconescu), Toronto, Canada

2025 Building Adaptive Minds with Gearshift Fellowship: From Mechanisms to Ecosystems, Laureate Institute for Brain Research (Host: M. Paulus), Tulsa, OK

2025 Adaptive Minds: The Neurocomputational Mechanisms of Agency and Control, Development & Cognitive Colloquium, University of Geneva, Switzerland

2025 Adaptive Learning Across Contexts: Gearshift Fellowship as a Neurocomputational Serious Game Platform, Neurocenter (Host: D. Bavelier), University of Geneva, Switzerland

2024 Innovating Approaches in Social-Cognitive Neuroscience & Computational Psychiatry, MIT (Host: R. Saxe), Cambridge, MA

2024 Integrative Computational Approaches for ADHD, Mood Disorders, and Comorbidities, Harvard McLean, Functional Neuroimaging & Bioinformatics Lab, Boston, MA

2024 Empowering Mental Health Research with Integrative Neurocomputational Tools, NIMH (Host: D. Pine), Washington, DC

2024 Integrative Approaches for Cognitive Neuroscience & Computational Psychiatry, Translational Neuromodeling Unit, ETH Zurich, Switzerland

2024 Computational Mechanisms of Behavioral Adaptability and Transdiagnostic Implications, Department of Psychology, Yale University, New Haven, CT

2024 Promoting Resilience with Neurocomputational Digital Tools, Department of Psychiatry & Behavioral Health, The Ohio State University, Columbus, OH

2024 Beyond Mechanistic Models: Leveraging Physiological and Behavioral Measures to Study Psychopathology, Rutgers-Princeton Center for Computational Cognitive Neuropsychiatry, Piscataway, NJ

2024 Promises and Challenges of Computational Psychiatry, University of Zurich (Host: N. Langer), Switzerland

2019 – 2023

2023 Using Game Theory and Experimental Economics to Study Social-Cognitive Characteristics in ADHD, Social-Cognitive Seminar Series, Brown University, Providence, RI

2022 Addressing ADHD and Comorbidities with Computational Psychiatry, Brown University, Providence, RI

2019 ADHD/ASD — A Different Way of Perceiving the World, Cincinnati Children's Hospital Medical Center, Cincinnati, OH

CONFERENCE SYMPOSIA & PANELS ORGANIZED

2026 **Organizer & Panelist — ACNP Annual Meeting**, Nassau, Bahamas
Using Computational Models to Dissect Symptom Heterogeneity across Conditions, Constructs, and Contexts
Discussant & Chair: Michael T. Treadway | Panelists: Andreea Diaconescu, Ryan Smith, Carly Lasagna

SELECTED CONFERENCE PRESENTATIONS

Oral Presentations

2026 From Mechanistic Deficits to Treatment-Relevant Markers in Schizophrenia, SIRS Annual Conference, Florence, Italy

2026 Escaping or Engaging: Dissecting Avoidance within a Unified Computational Game Platform for Precision Phenotyping, ACNP Annual Conference, Nassau, Bahamas

2025 Gearshift Fellowship: A Next-Generation Neurocomputational Game Platform, Joint International Conference on Serious Games, Lucerne, Switzerland

2025 Neurocomputational Mechanisms of Adaptation in ADHD Across Social and Cognitive Contexts, Computational Psychiatry Conference, Tübingen, Germany

2025 Dissecting Neurocomputational Mechanisms of Impaired Instrumental Learning Across Psychopathologies, Society of Biological Psychiatry, Toronto, Canada

2025 Complementary Mechanisms in the Basal Ganglia Support Cautious Decision-Making Under Conflict and Uncertainty, Winter Conference on Brain Research, Lake Tahoe, CA

2023 Decoding Complexity: Mechanistic Computational Phenotyping for ADHD and Depression, ACNP Annual Conference, Tampa, FL

2022 Eye-tracking, Gaze, and Pupil Dynamics in ADHD: Biofeedback Possibilities during Novel Perceptual Conflict Task, American Academy of Child and Adolescent Psychiatry (virtual), Toronto (CA)

2021 Personalized medicine using computational psychiatry, American Academy of Child and Adolescent Psychiatry (virtual)

2020 Neurocognitive subtyping of ADHD by Computational Psychiatry, International Conference on ADHD by CHADD (virtual)

2020 Using Computational Modeling as a Moderator Analysis to Understand the Benefits of Neurofeedback for ADHD, American Academy of Child and Adolescent Psychiatry (virtual)

Poster Presentations

2026 Contextual Adaptation as a Source of ADHD Heterogeneity, Society of Biological Psychiatry Conference, New York, NY

2025 A Neurocomputational Supertask Platform for Modeling and Training Co-Adaptive Behavior in Humans and AI Agents, Reinforcement Learning and Decision Making (RLDM) Conference, Dublin, Ireland

2024 Underlying Neurocomputational Mechanisms of Behavioral Adaptability, Cognitive Computational Neuroscience (CCN) Conference, Boston, MA

2024 Integrating Mechanistic Neurocognitive Tests Across Disorders, Computational Psychiatry Conference, Minnesota, MN

2024 Using Computational Modeling to Distinguish Between Anhedonia and Depression, 26th Annual Mind Brain Research Day, Brown University, Providence, RI

2023 Multidimensional Computational Phenotyping of Anhedonia & Depression, Computational Psychiatry Conference, Dublin, Ireland

2022 Broader Visual Processing and Distinct Pupil Dynamics Facilitate Perceptual Conflict and Compensate for ADHD Distractibility, Mental Effort Workshop, Providence, RI

2019 Computational Psychiatry: Studying ADHD in Neurocognitive Tests, Society for Neuroscience Conference, Chicago, IL

2019 On the implementation of computational psychiatry to study ADHD, Institute for Behavioral Medicine Research Conference, The Ohio State University, USA

2015 Generosity Across Contexts, Social Norms and Institutions, International Conference, Congressi Stefano Franscini (CSF), ETH Zurich, Ascona, Switzerland

TEACHING & MENTORING

Courses Taught

2021 **Graduate Teaching Associate, The Ohio State University**
PSYCH 2220: Data Analytics in Psychology | PSYCH 5613H: Biological Psychiatry | PSYCH 5614: Cognitive Neuroscience | PSYCH 3331: Abnormal Psychology | PSYCH 4475: Psychology of the Self

Workshops & Invited Lectures

2025 Leveraging Sequential Sampling Models for Cognitive Neuroscience & Computational Psychiatry, Universität Osnabrück, Germany

2025 Introduction to Modeling Behavioral and Neural Data with HSSM, Winter Conference on Brain Research, Lake Tahoe, CA

2024 Carney BRAINSTORM Computational Modeling Workshop, Brown University

2024 Modeling Workshops in Computational Modeling for Psychiatry & Neuroscience | Columbia University & Rutgers University

Graduate Mentees

2025 – present Hanrui Mei — PhD, Quantitative Psychology, The Ohio State University

2024 – 2026 Pranavan Chanthrakumar — MD/PhD, Brown University (computational psychiatry; co-authored publication)

2024 – 2025 Ziwei Cheng — PhD, University of California Berkeley (first-author publication under Ging-Jehli mentorship)

2022 – 2023 Quinn Painter — Clinical PhD, Creighton University (co-authored publication)

Undergraduate & Research Mentees (selected)

Swarag Thaikkandi (→ LNCA, University of Strasbourg) | Seik Oh (→ PhD, Computer Science, Virginia Tech) | Nada Saaidia (Brown University) | Jacob Sellers (→ PhD, Cognitive Neuroscience, University of Michigan) | Aditya Maroju (→ PhD, Economics, Georgetown University) | Karly Britt (→ PhD, Public Health, Boston University) | Prateek Palsule (Ohio State University) | Catherine Panchyshyn (→ Chemistry Teacher, BMSA) | Quinn Painter [clinical PhD] | Elizabeth Duchan (Brown) | Ahmed Abdelbaki (Ohio State Med) | Qile Jiang, Shiqi Wang, Nichols Macfadyen (Brown University)

PROFESSIONAL SERVICE

Reviewing

Ad-hoc Reviewer: Biological Psychiatry; Brain; Clinical EEG and Neuroscience; Cognitive, Affective, & Behavioral Neuroscience; Journal of Cognitive Neuroscience; Molecular Psychiatry; Nature Communications; NeuroImage; Neuropsychology; Neuroscience and Biobehavioral Reviews; Psychological Medicine; Science Advances; The Journal of Neuroscience; Translational Psychiatry; and others.

Grant Reviewer: Wellcome Funding. **Conference Reviewer:** Cognitive Computational Neuroscience (CCN); RLDM.

Advocacy & Community

2026 Ambassador, SfN Hill Day — Society for Neuroscience 2026 Virtual Hill Day, advocating for NIH/NSF investment in neuroscience and mental health research

2025 Panelist, 'How to Succeed as a Postdoc' Symposium, CoPsy Department Retreat, Brown University

2024 – present Science Writer, CPN Modeling Blog Series — computational neurocognition for broad audiences (gingjehli.com)

2023 – 2025 Consultant in Computational Modeling — The Ohio State University, Brown University, University of Iowa, University of Minnesota

2020 – 2022 Undergraduate Mentor, PhD application workshops (writing, materials, interviews) — Brown University & The Ohio State University

INDUSTRY, ENTREPRENEUR & CONSULTING EXPERIENCE

2025 – present **Violucid LLC** — Founder & Board Member (Delaware, USA)

2023 – present **BGBehavior LLC** — Co-Founder & Advisory Board Member (Ohio, USA)

2012 – 2013 **Chief of Staff & Consultant**
Fehr Advice & Partners AG, Zurich, Switzerland (100% employment)
Strategic business and project management serving three executive directors and CEO; led a team of 4. Advised clients on behavioral economics applications in organizational design and incentive structures.

2007 – 2012 **Private Banking Executive | Executive & Entrepreneur Desk, Wealth Management**
UBS AG, Zurich, Switzerland (100% employment)
Managed high-net-worth client portfolios for executive and entrepreneur clients. Progressed from Relationship Banker → Private Client Banker → Private Banking Assistant. Certified apprenticeship trainer (2008–2011), overseeing education of 6 apprentices in banking and finance.

2013 **Data Scientist (Consultant)**
Statistical Bureau, City of Zurich, Switzerland (60% employment)

PUBLIC OUTREACH & MEDIA

2026 – present **Ambassador, Thinking about Thinking**

Selected contributor to international initiative convening researchers across neuroscience, AI, mathematics, and cognitive science on foundational questions in intelligence and adaptive systems.

2025 **Podcast Interview — Kaleidopod, University of Osnabrück Student Radio**
One-hour public interview on next frontiers in computational cognitive neuroscience and computational psychiatry.

2021 **Radio Interview — All Sides with Ann Fisher (NPR affiliate)**
Interview on computational psychiatry and ADHD for a general public audience.

2020 – 2021 **Media Coverage** — Ohio State News; The Science Times; HMP Global Learning Network
Coverage of Psychological Bulletin systematic review on computational psychiatry and ADHD neurocognitive testing.

PROFESSIONAL AFFILIATIONS

American College of Neuropsychopharmacology (ACNP, award fellowship member since 2025) | Society of Biological Psychiatry (SOBP, award fellowship member since 2025) | Psychonomic Society | Society for Mathematical Psychology | Society for Neuroscience | Transcontinental Computational Psychiatry Workgroup (TCPW) | Women of Mathematical Psychology | SwissImpact

TECHNICAL SKILLS

Languages: German (native); English (full professional proficiency); French (full professional proficiency); Italian (basic)
Programming: Python, MATLAB, C++, Fortran, LaTeX; Git/GitHub; Linux, macOS
Computational Modeling: Stan, BRMS, EMC2, DMC, HDDM/HSSM, fast-DM; emergent (biologically-inspired neural networks)
ML/DL: PyTorch, TensorFlow, scikit-learn; transformer fine-tuning (BERT); CNNs, RNNs
Statistics: R, SPSS, STATA, SAS, JASP, WinBUGS, PyMC3/4; multilevel mixed models, Bayesian hierarchical models, SEM, dynamic causal modeling
Hardware: EEG (full-cap), eye-tracking (EyeLink, Gazepoint), fMRI data analysis; experiment design: jsPsych, Psychtoolbox, z-Tree
